Assignment: Lab 3 Repetition/Calculator

Start

initialize

get first number
as result

get operation

while operation
is not END → yes → end

yes

get next number

if operation is
add → calculate result +
next number

no

if operation is
subtract → calculate result -
next number

no

if operation is
mutliply → calculate result *
next number

no

if operation is
divide → calculate result /
next number

no

display error
message

display result

get next operation
